DETAILED ACTION

Continued Examination

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application on 05/07/2007. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 03/22/2007 has been entered.

Acknowledged Receipt

Receipt is acknowledged of the changes to the claims and the remarks related to the previous rejection, both of which were filed on 03/22/2007. The above have been considered and entered.

Allowable Subject Matter

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 10, and 13, the prosecution history, especially at the previous Remarks by Applicant (03/22/2007, page 13) clearly indicates the reasons for allowance. Specifically, even though Parham discloses in at least col. 8, ll. 53 to col.9, ll. 44 that the primary reflector 290 is applied over approximately one-half of the exterior surface of the elliptical or bulbous portion 258, Parham does not explicitly disclose the distance down the rearward or extended end portion the primary reflector is applied. Moreover, Parham infers that

Art Unit: 2879

the primary reflector 290 should cover the majority of the extended end portion to yield a light beam pattern having a smaller angular distribution relative to the longitudinal axis S and larger in candlepower. This inference actually teaches away from the formation of the primary reflector that does not mostly cover the extended end.

Therefore, the prior art fails to teach or suggest a reflector lamp with the primary reflector covers a portion of the hollow discharge vessel but does not mostly cover then end, in combination with the remaining limitations of the claims.

The remaining claims are allowable due to their dependency.

Any comments considered necessary by the Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of reasons for Allowance."
